

Dear producers,

We would like to remind you that from 1 October 2017 the audits will start to be done under the GLOBALG.A.P. 5.1 version.

The changes are available on our website www.lsqa.com (**Summary of Changes**). New documents will be also available on GLOBALG.A.P. website (www.globalgap.org), at Documents section.

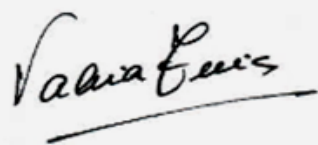

Please note that the 5.1 version is not a new version, but an update version, in which the wording of certain compliance criteria is clarified and improved, and certain points change the level.

In this respect, in this version the points AF 16.1, AF 16.2 and FV 5.7.3 have changed from recommended to minor points, and the point FV 4.1.2 is divided into a and b, as the case may be in each crop.

The points CB 5.2.1 and CB 5.2.2 listed in the release of the 5 version are maintained as major from 1 July 2017, as it was stated at the beginning of the 5 version.

We remain at your disposal for any further queries.

Best regards,

Agr. Eng. Valeria Telis
Good Agricultural Practices Manager
Scheme Manager GLOBALG.A.P.
